

"We hired GB3 to seal the leaks in our home and noticed a substantial improvement in comfort the very next day."

"We had no idea that tackling the "low hanging fruit" could make such a drastic difference. We saved about \$180 on utilities the month after our audit and repairs, and that really adds up over time!"

- Adam and Christine
Denver, Highlands Neighborhood

Our mission is to make your home and business more comfortable, healthy and energy efficient.

"GB3 did an outstanding job. We can now enjoy our great room even on the hottest days.."

"GB3 was thorough, easy to work with and carried through on their commitment to insulate my house. I have already recommended the company to my realtor friend and will certainly recommend GB3 to anyone who asks."

- Jennifer R
